

The **Cologne Graduate School of Ageing Research (CGA)** in Germany is a joint venture of the University of Cologne Excellence Cluster on Stress Responses in Aging-Associated Diseases (CECAD), the University Hospital Cologne, the Max Planck Institute for Biology of Ageing and the Max Planck Institute for Metabolism Research. Cologne has emerged as a leading global research cluster with a stellar constellation of institutes and scientists dedicated to ageing research in Life Sciences. We offer up to

5 Master Fellowships

to highly motivated and talented students holding a B.Sc. degree in Biology or a related subject. The Master fellowship programme is embedded in a cutting-edge research environment and will **start on October 1, 2019**. Admission to the structured and well established Biological Sciences Master programme of the University of Cologne is a premise of receiving a Master fellowship. Master fellowships are 800 €/ month and will be awarded for a maximum duration of 1.5 years and until the start of the Master thesis project.

We offer

- An outstanding international research environment at one of the most prestigious ageing research cluster in Europe
- Close contact to our principle investigators and research groups of the above mentioned institutes
- Possibility to apply to the Cologne Graduate School of Ageing Research for structured PhD studies
- Excellent infrastructure for training and research by internationally recognized scientists in facilities with state-of-the-art technologies
- Support and guidance for international students in all administrative matter

We are looking for

- Highly qualified students holding a B.Sc. degree in Biology or a related subject that are motivated to explore the field of ageing research at an early career stage
- Outstanding 1st year students of the Biological Sciences Master Programme of the University of Cologne that are eager to work in the field of ageing research
