Training in Scientific Writing and Publishing

Delivered by **Nature Research journal editors**, researchers learn how to publish in top science journals.

ONLINE TRAINING

Our online course takes researchers through the entire publishing process, from writing a paper to publication.

3-PART COURSE, 15 MODULES, ~11 HOURS LEARNING TIME

Writing your paper >>>>> Submitting your paper >>>>> Writing and publishing a review paper

What Makes a Great Paper

What top tier journal editors look for in a paper

Elements of Writing Style

The golden rules of writing and structuring the text in your paper

Titles and Abstracts

How to coax your target audience from the title to the paper itself

From Introduction to Conclusion

A section-by-section guide to making the most of the main text

Data Management

How to collect and manage your data, and what to look for when storing and publishing it

Data Presentation

How to design clear and informative figures and tables

Authorship and Authors' Responsibilities

The contributing criteria for authorship and the responsibilities of an author

Selecting a Journal for Publication

Which criteria to consider when choosing a journal to submit to

Submitting Your Paper

Submission procedures, making a case to editors, and cover letter tips

Understanding Peer Review

An overview of peer review, writing rebuttal letters and how to be a good reviewer yourself

Journal Decisions

Guidelines to follow after a paper is accepted or requires revision, and dealing with rejection

The Editorial Process

An overview of editorial processes at top tier journals

Measuring Impact

An overview of research metrics for research and researchers

Plagiarism and Other Ethical Issues

Why misconduct happens, what it looks like and what to do about it

Writing and Publishing a Review Paper

Tips on writing an objective and balanced review paper

EDITORS FROM THE NATURE RESEARCH JOURNALS

The course is delivered by over 30 editors from over 20 Nature Research journals.

Researchers can watch over 170 videos with the editors, giving them a first-hand insight into publishing at top-tier journals.

Plus, all the course content has been peer-reviewed by Nature Research journal editors.

“It is particularly useful to get some insight from the editors themselves about their favorite papers and why.”

HARVARD MEDICAL SCHOOL

ONLINE LEARNING DESIGN

Designed for busy researchers

Researchers can choose their own learning path – whether that is working through the course in order, or dipping in and out of modules.

The course is delivered in 3 parts so content is easy to find.

The individual bitesize lessons allow researchers to learn in 10 minutes and fit the course around their work.

Interactive

‘Activities’, such as multiple-choice questions and pairing games, encourage engagement and critical thinking.

Every video includes English language captions and transcripts.

Certificates

Each of the three course-parts offers a certificate-of-completion.
